# MESSAGE

It is a well-known saying that education is a must of all human beings. Its inevitable attitude makes everything fine in the journey of a man with a hope reaching the unreachable to get the perfection with an inner vision of wisdom in a sense of welfare for all.

On the other hand, we need to carry on teaching and learning process in an effective manner boosting with all our efforts. Then, what things do we need? The answer, if not mistaken, is 'Enlighten your teaching and learning process.'

With this view in our minds, we need competent educators, well equipped infrastructures and other necessary things for the purpose. Apart from these things, I would like to appeal the parents, guardians and teachers to have careful association with their wards for a future goodwill.

Wish you all the best.

(AKHAM IMOCHA SINGH)  
Co-Founder, Chairman  
XTRA-EDGE SCHOOL  
Ghari Awang Leikai, Imphal

Dated, Imphal, The 20<sup>th</sup> June, 2022

After ten years of general education, the higher secondary stage is the stage of maximum challenge for the students. The students of this group are passing through a critical phase of their lives - transition from adolescence to youth, they have to take important decisions concerning their future career by choosing suitable courses. In fact, more than the need and aptitude, it is the awareness and performance of the students at this stage that ultimately determines their future. The school has to provide components that communicate essential values in their totality. Here in XTRA-EDGE SCHOOL, we thrive on the principle that every teacher has to be a teacher of values with congenial school goals, evolving discipline through participation of staff and students, wherever necessary, ensuing two-ways communication for redressal, welfare services, help to needy students, remediation, re-evaluation and non-rejection of poor achievers, formulating rules that ensure participation of every student in games, activities and programmes relevant to their interests. Let XTRA-EDGE help you to fulfill your hope and aspirations. It is an institution that won't just teach but help you start-up.

OUR MOTTO: EDUCATION IN UNDERSTANDING

## A PREFACE

The XTRA-EDGE School is a co-educational institution imparting knowledge of science to students at the level of +2 with full equipped educators and well experienced guides who are almost desired by the parents and guardians. The infrastructure maintained is the global standard science equipments. Making a competition and a challenge, the educators perform the three inevitable things namely, the study circles, the library activities and enrichment activities for the young learners to make them perfect in this modern competitive world.

## ABOUT THE SCHOOL

The institution, under the proposal of Local educationists and competent renowned persons, has rightly been established since the year 2011 with an affiliation to the Council of Higher Secondary Education, Manipur under the name, XTRA-EDGE SCHOOL with its affiliation No. 1/96/96 – HSC (Vol – IV): Imphal, The 13th July, 2011, at Sagolband Bijoygovinda Mamang Leikai by the M/S. XTRA-EDGE FOUNDATION.

The reckless attitude of everything is undesirable in education. Education itself is a never ending process with an attire in infinity. It must be formal and fact in its journey, not a fake. No doubt, this institution, within a short period of about 5 years, we have produced some students in the national and international standard. But, hope is like a ladder, leading the steps higher and higher still just to get possible results of our actions. And, as such, the shiftment of this institution from Sagolband Bijoy Govinda Mamang Leikai to Ghari Awang Leikai, Imphal West, from the session 2015 - 2016 is one of the approaches for a future betterment, where the teacher and the taught may enjoy complete serenity and appeasement in their activation with their studies without disturbance, having enough space, grounds and other well – equipped modern infrastructures, rooms and introducing computer class rooms for the purpose. Indeed, this new place may rightly be called a heaven for academic atmosphere.

## COURSES OF STUDIES

From the academic session 2015 – 16, the School had introduced Computer Science course in Class XI Sciences. The School opens the following courses of studies for XI and XII in the Science stream under the syllabi and curriculum of the Council of Higher Secondary Education,

### XTRA EDGE ARTS STREAM

Xtra Edge School, Ghari brings to you the great news of the commencement of a separate block for the stream of Arts starting from this upcoming academic session of 2022. We aim to provide the best system for studies in the Arts stream at the higher secondary level with expertise in the concerned subjects forming the faculty of the institution.

This new initiative of the institution is undertaken with the hope to fulfill the desires and aims of many bright students of the state wishing to pursue their higher secondary studies in the stream of Arts, which is at most times hindered by the very few numbers of institutions offering courses in the Arts stream. We have, after a serious and productive discussion with various expertise in the field, decided and finally confirmed our plan to incorporate the Arts stream in our formerly Science stream-based institution from the upcoming 2022 academic session.

The institution will offer main subjects in the stream – History, Political Science, Economics, Sociology, English & Geography. The curriculum will be based on the syllabi prescribed by the Council of Higher Secondary Education, Manipur (COHSEM). Further details of the courses and admissions will be notified soon.

With a successful history in the results of the Higher Secondary Examination conducted by COHSEM in the science stream, we promise the students wishing to pursue Arts stream in the institution equal success in the examination and in their career. We wish to promote an advanced education system in the state in both the Science and Arts streams.

## HOSTEL :

Hostel accommodation cannot be claimed as a matter of right. Admission to the hostels is made against the available vacant seats. All selected students who need hostel accommodation will be required to apply in the prescribed application form obtainable from the School Office.

The School has three hostels (two for boys and one for girls), which provide excellent hostel accommodation for a limited number of bonafide full-time students of the school who pay the required fees regularly. Two boys hostels have a total accommodation of 78 (38+40) students while the girls hostel has an accommodation of 100 students. Each hostel has its live-in wardens, who administer the hostels.

Apart from hygienic foods, hostels provide recreational facilities that include 24 x 7 uninterrupted power supply, hygienic drinking water and good study atmosphere. While in the hostel, the students are responsible for the up keeping of rooms, furnishing and fixtures. In order to regulate community living in the hostel, certain rules have been framed for guidance of the students. All inmates of the hostels have to observe prescribed rules. There are some special rules for the girls' hostel. The School authority may ask any inmate to vacate the hostel, if he/she is found indulged in any activity unbecoming of a student or violate the Hostel rules.

8. Throwing objects inside or outside the bus is not permitted. Talk quietly; the driver needs to concentrate safely to drive the bus. Fighting, shouting, or use of obscene language is not permitted.

### SMART CLASS:

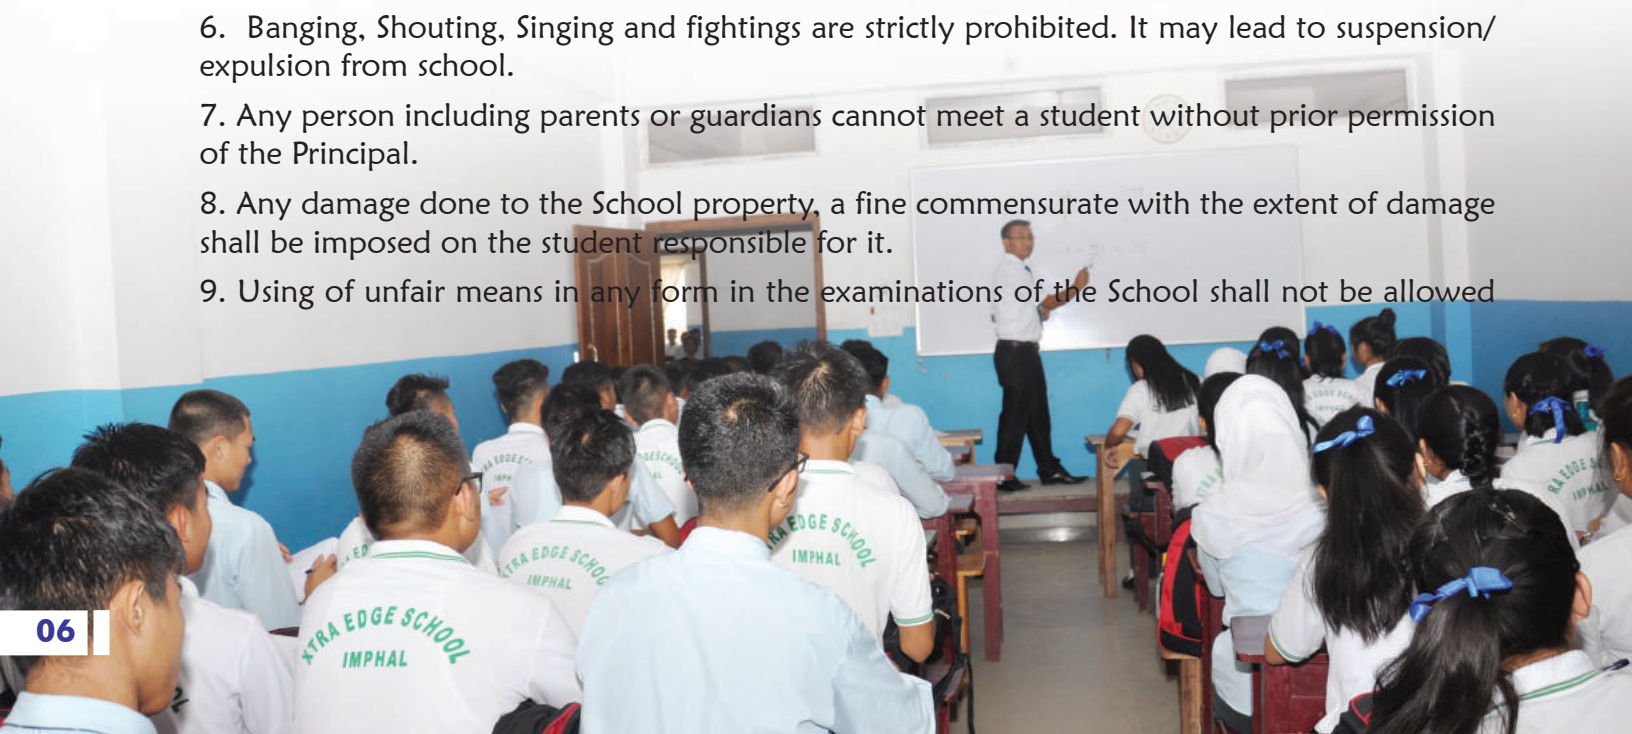

The smart class education is indeed a blessing to the students of the 21st Century. Smart class uses all interactive modules like videos and presentations and this visually attractive method of teaching becomes appealing to students who are already struggling with the traditional method of teaching in a classroom. In fact, smart classes are almost like watching movies as sometimes, animated visuals are used to teach a point. This is because the audio-visual senses of students are targeted and it helps the students to store the information fast and more effectively. And then, there is the advantage of utilizing much of the time wasted earlier in drawing or preparing diagrams on board. Smartboards have all these information and can be presented during the time of class lectures and thus, the time saved can be used in more important things.

### BIOMETRIC ATTENDANCE FOR STUDENTS:

Biometric based attendance has been launched from the academic session 2015 – 16 by this institution. In this system, a SMS will be sent to the mobile numbers of their parents automatically; when the students press the fingerprint sensor or a brief exposing on biometric camera, so that the parents/guardians can easily know whether their wards attend school in time or not. Hence, filling of mobile numbers of parents/ guardians in the admission form is mandatory.

### RULES AND REGULATIONS

1. Discipline is an integral part of the learning process. Every student should maintain strict discipline inside and outside the School.
2. Every Student must bring School identity card daily.

15. Students are not allowed to go out of the campus during school hours, including recess time without the Principal's permission.

16. Mobile phone or cell phone is strictly prohibited. Mobile numbers of students to be submitted to the school must be of the parents/guardians. In case of any loss of mobile phone, a report be given to the Principal/ Vice-Principal immediately with working mobile number.

### **PROGRESS REPORT:**

XTRA-EDGE SCHOOL has been working hard to improve the quality of reporting on student progress. We have been listening to our valuable suggestions and advice from parents and guardians and have hopefully developed a reporting norm to satisfy students' and parents' desire. From the session 2016 – 2017, Examination progress report has been sent to the mobile number of the parents or Guardians. Every parent receives the progress report of their wards in the form of message through their registered mobile number so that the parents or Guardians can easily evaluate the progress of their wards. Hence, filling of working mobile numbers of parents/guardians in the admission form is compulsory.

### **DETENTION**

Students who do not pass the school examinations and Pre - Test Evaluation will be screened out and they will be debarred from appearing at the promotion/ Higher Secondary Examination.

**Subject: Former student Ronaldo Laishram made a Preliminary Asteroid Discovery under All India Asteroid Search Campaign, 2014, Phase III.**

Dear Sir/Ma'am,

On behalf of SPACE, I would like to congratulate your school as one of its former students, **Ronaldo Laishram**, has made the preliminary discovery of an asteroid as part of **All India Asteroid Search Campaign (AIASC) 2014**. I am pleased to inform you that along with his team partner, for the **Team Salonia Conquerors**, your student has successfully made 1 preliminary discovery of **Main Belt object MAUR397**.

I am very proud to say that this is one of the first five preliminary discoveries of this AIASC season as the nationwide campaign stepped into its fifth year.

The opportunity provided by SPACE along with regular guidance and his sincere hard work has been instrumental in this achievement. The diligent effort of Ronaldo towards this campaign is praiseworthy.

Please note that preliminary discoveries must be observed a second time, usually within 7-10 days. If that happens, only then the Minor Planet Center (Harvard) redesignates them as Provisional Discoveries. **Let's wait and hope this discovery results in a Provisional Discovery. Only if it becomes a provisional discovery will it eventually attain a FORMAL discovery status.**

SPACE would also felicitate this team on a common platform after the completion of the All India Asteroid Search Campaign 2014 during a Felicitation Ceremony later in the year.

Regards,

Amit Verma
